**BUY A
CHAIR MAT**

Some commercial carpet manufacturers require a chair mat to be in place for the warranty to be in full effect.

DON'T
MAKE THIS EXPENSIVE
MISTAKE!

 **8hr
300x**

In an 8 hour workday, the average office worker will move their chair more than 300 times.*

**SAVE YOUR SURFACE FROM
TEARS, SPILLS AND PULLS
CAUSED BY CASTER WEAR.**

**SOFT WHEEL
CASTERS**

Using soft wheel casters can increase performance and extend chair mat life. A hard wheel caster will crack a chair mat over time.

A chair mat provides smooth mobility, reducing the amount of stress on one's back.

**REDUCE
STRESS**

**USAGE
CARPET**

Consider a thicker mat for longer or more intense use and load.
